REPORT OF SCHOOL DEPARTMENT

To the citizens of the Town of Winterport:—

The following report of the schools and of their financial condition is respectfully submitted.

The village schools commenced in the fall with teachers as follows:—Grammar, Miss Smith; Intermediate, Miss Crimin; Upper Primary, Miss Moody; Lower Primary, Miss Thompson. At the end of the first four weeks the number of scholars in the Lower Primary had decreased to six, and it seemed unwise to continue the school.

An assistant principal was badly needed in the high school, Miss Pratt having been advanced to the position of principal so your superintending school committee elected Miss Smith to the position of assistant principal; Miss Moody to the Grammar school and Miss Thompson to the Upper Primary school, suspending the Lower Primary school for an indefinite period, and placing the scholars of the Lower Primary school in the Upper Primary school. This has proven to be a very satisfactory arrangement.

The rural schools have been under the direction of teachers as follows. Fisher school, Mrs. Gertrude Robertson; Martin school, Miss Almira Porter; Whittier school, Miss Grace Lord; Lowell school, Miss E. Marguerite Page. The Ellingwood's Corner school was taught during the fall term by Mrs. Carrie Hamlin. Miss Lela E. Hunting now has the school in charge. Although many interruptions have occurred on account of sickness the schools are in good condition due to the excellent work and special effort of our teachers.

We are especially fortunate in having so many of our home teachers in our schools. Let us endeavor to retain them.

CONVEYANCE.

Conveyance has been provided for the children from the Cole's Corner road to the Whittier school by Mr. Albert Twining at a cost of \$10 per week; the number conveyed being eight.

Seven children are being conveyed to the Martin school. Two teams were provided during the fall term and three during the winter term at a cost of \$15.50 per week.

Mr. George A. Merry conveyed Juanita Fields and Dale Dyer to the Fisher school nine weeks at \$6. per week. These schools are now being taught by Mrs. Mildred L. Clark at her home for the price of conveying.

Some of this conveyance will be discontinued at the opening of the schools in the spring.

FUEL.

The committee has had full charge of providing the fuel and a supply has been purchased for all of the schools for the current year.

REPAIRS.

Quite extensive repairs have been made on the Upper Village school. A new annex for toilets has been built, the main building leveled, the center having settled about three and one-half inches, new cement posts for support have been put under the building and some parts of the cellar wall have been repaired.

A new sill has been put in at one end of the schoolhouse; the crosswise partition on the lower floor has been changed to a lengthwise partition and a new stove and new pipe placed in the primary room.

We invite inspection, by the citizens, of the repairs on this building.

Only minor repairs were made at the other schools.

EQUALIZATION FUND.

The equalization fund which we receive from the State has been expended according to the recommendation of the state officials and the repairs inspected and approved by them.

We hope the program of repairing which has been outlined will be continued, the Whittier school being the next to be repaired. There is a balance of \$83.02 from last year's equalization fund to be used towards that purpose.

TEXT BOOKS.

No changes in text books have been made. Only books to supply the deficiency due to wear and two small lots of supplementary reading matter have been bought. Many new books are being written for school use that are of material value to the children who use them. We should like to be able to place them in the hands of our teachers and scholars. Books are costing more each year therefore it seems necessary that we have a larger sum with which to furnish the books actually needed.

INSURANCE, APPARATUS, APPLIANCES, ETC.

More material for the laboratory is needed each year to keep up with the requirements. This material is expensive and better accommodations for caring for it are needed.

Paper, pencils, erasers, pens, etc. have advanced in prices which necessitates a larger appropriation for supplies.

HIGH SCHOOL.

After several changes, permanent teachers were secured for the high school as has been mentioned in the report on common schools. The school is in excellent working condition and we cannot speak too highly of the efforts and success of the teachers in their work.

IN MEMORIAM.

We wish to express our deep appreciation of the efficient work and the great interest always manifested by our highly esteemed member, the late Dr. Charles Nason.

CONCLUSION.

We extend our thanks to all who have in any way contributed to the success of the schools.

Superintendent of Schools and Secretary of the Superintending School Committee.

REPORT OF THE HIGH SCHOOL PRINCIPAL.

Members of the Superintending School Committee and Citizens of Winterport:—

I herewith submit to you my report of the work being done by the high school.

The fall term opened Sept. 16, with an enrollment of thirty-eight pupils. Although the first half of the year's work was somewhat interrupted because of the then-prevailing epidemic, the students have shown a commendable desire to make up for lost work, and there is no reason why the end of this year should not mark as satisfactory progress as that of years having a more auspicious opening.

Our superintendent has been very prompt in supplying us with necessary text books and laboratory apparatus.

I hardly need to remind Winterport citizens of their good fortune in securing the services of Miss Louise Smith as assistant, as her efficiency as an instructor is well known to them.

Among the social activities of the school has been the Senior class drama, "Excuse Me," which proved to be a success both socially and financially.

An Athletic Association has been organized and a boys' basket ball team formed. This has furnished pleasurable and needful recreation, although few regular games have been arranged as yet.

I would not feel that I could conscientiously close this report without calling the attention of parents to the evils resulting from irregular attendance. While I fully realize that many students have had to lose time through illness, yet I feel that in many cases, there have been absences which were avoidable. Certainly no student, no matter how intelligent, can do his best work if allowed to stay at home from school a day here and a day there. Besides the habit being formed is harmful. Students should be made to realize that for five days in the week the school-room is their place of business, and that no outside activity should be allowed to interfere with it.

In closing I wish to thank pupils, school officials, parents and all for their loyal support and co-operation. Winterport has a class of boys and girls of the high school age of which she

may be justly proud. Certainly we all realize in these critical times, as never before, the value to the Nation of trained young men and women. May we all continue to work together for the best interests of the young people.

Respectfully submitted,
